

Day 1 - Arrival

Arrival in Bali.

Participants will be met at the airport and transferred to the host hotel.

Briefing - Bike setup and preparation

Day 2 - 90km, 2000m+

We will leave Ubud through beautiful and quiet back roads, gently adapting to the road, the heat, and the climb that is initially easy. This warm up is followed by a long climb that leads us to the highest bridge of the island, Pelaga, where we will stop for a light lunch. After the break, we will constantly keep climbing until the highest road in Bali at 1715m above sea level. We will then descend toward the volcano caldera and ride overlooking Batur and its lake. Our day will end at a hotel overlooking the volcano, for a breathtaking view. All riders will then have the option to enjoy a hot springs bath, or to visit the local temple, one of the most important in Bali.

ETD from hotel: 9am
ETA at the next hotel: 2pm

Day 3 - 110km, 780m+

After check-out, we will start descending to leave the volcano behind, and head to the temple of Besakih, the major Hindu temple of the island, via a short but intense climb. After a short visit, the ride will continue downhill, until the town of Duda and Sibetan, overlooking lush ricefields, and great valleys. Some more descent until the ancient town of Karangasem, until we will hit the coast and ride along Candidasa and Padang Bai, where we will enjoy a nice lunch. After the break, be ready for some coastal road that will lead us to the town of Sukawati, home of the biggest market of the island, and then gently uphill back to Ubud.

ETD from hotel: 9am ETA at the next hotel: 3pm

Day 4 - Departure

All packed and ready to go? Or would you like to extend your stay? Let us know and we will help you with all necessary arrangements. Otherwise, thank you for joining this great tour, and see you again!

Bike preparation.

Participants are transferred to the airport.

Farewells.

Tour information

Please note that the routes are subject to change, based on unexpected circumstances such as road closures, or just because we have found a better route in the meanwhile. This does NOT affect the pricing.

Average speed is an estimate, we may need to adjust it based on the group's performance. The departure times are planned in a way to leave enough time to the riders to be able to rest at the end of each day and enjoy the location/hotel facilities.

Bali is a fairly hilly island. Average speed is expected to suffer on the harder days. The support car is there for a reason, don't be shy.

Hotel choice has been determined by the organizers trying to combine it with the route in an optimal way. We will try at all times to stay in the best hotels we can find, and this may sometimes be difficult especially in the areas of Munduk and in the North of the island. Star rating of our hotels will be 4 stars at least in most cases, but a 3 star hotel may be the only choice for a night or two. After a hard day on the saddle the last thing you want is a crappy uncomfortable hotel.

Inclusions

- All logistics, permits, fees and so on, needed for the smooth running of the event
- Airport transfers
